Remember Love

Remember me

whist I sleep

my love, in your heart

to always keep.

That distant laugh; that hidden smile

Will bring me back; to you a while.

Remember love

that once we shared.

Unspoken strength

throughout despair.

That gentle touch and what we meant

Feel now no grief:

just loving strength

Remember us

and all we are

no distance life seen from afar.

Remember all the love we gave

whilst soft I sleep;

in this sweet grave

Remember too

that I am close

just by your side

when needed most.

And through this time

that we're apart

know I am there;

deep in your hearts.
